

A CLEARER VISION FOR THE PERFECT FINISH

Neptune FK

fully automated B3 laminator

The Neptune FK is a fully automatic laminator for sheets up to B3 size. Its proven flying knife separation system ensures precision and quiet operation regardless of the type of laminating film used.

The suction feeder offers a deep pile for longer run work and is easily adjustable for a variety of different sheet sizes.

A missing sheet detector helps to prevent unwanted wraparounds.

The centralised control panel offers ease of operation.

The mandrel has a hinged support and provides a handy storage for the T-bar Allen key.

A decurl bar, which may be altered on the run, is fitted to assist in giving a flat result.

Flying knife sheet separation for use with films that are difficult, or impossible, to burst on a standard burster sheet separator. This makes it an excellent choice for enhancing a variety of digitally printed products, from books, photo albums to advertising materials.

The standard catch tray may be adjusted to suit various sizes.
